*Sustainable Culinary Clothing*

# welcome

We are proud to present to you the new KatChef catalogue. This is a result of numerous hours of being on the floor with Chefs across countries -observing, discussing and capturing suggestions. We understand what drives and challenges Chefs in the kitchen.

The KatChef collection is designed and fabricated to maximise comfort, protection and style to suit all aspirations. The KatChef fabric team has newly introduced the high- end “European Comfortex Sateen” and “Comfortex Twill” fabrics. We have also launched the 100% wrinkle free pant, another first, to enter the chef’s line. It is important for the Chef to stay dry and cool, so we have introduced a back vent jacket. This has a mesh panel at the back for greater moisture management. For the budding chefs, we have the denim cut pant (*Style 201221 featured on page 12*) that combines style and utility with ease. The exclusive made to order linen jacket, is available on demand, for the Cordon bleu.

KatChef has an eco-friendly product range, fully endorsing the go green initiative. The Company has been a front runner in offering garments made out of 100% organic cotton and recycled poly fabrics. The entire manufacturing process of our clothes-line meets global standards.

We, at KatChef, look forward to a future of unparalleled innovation in the culinary world and will always strive to delight our customers. Do visit us at [www.katchef.com](http://www.katchef.com) or write to us. We will be happy to meet you.

# WASHCARE INSTRUCTION

Our product range consists largely of garments that are suitable for industrial laundering. All our products undergo stringent testing regarding durability, linting and pilling, shrinkage and colour fastness.

- Clothes must always be washed before use.
- Never wash white/ light-coloured and coloured garments together.
- Dark coloured garments should be washed separately.
- Remember to empty pockets before washing.
- Close zip fasteners and velcro fastenings.
- Never iron directly on prints - iron on the reverse side or cover with an ironing cloth.
- Use the correct amount of washing powder.
- Do not use fabric softener
- Do not use bleaching agents on coloured products.
- Do not use optical brighteners.

Before industrial laundering, appropriate washing tests have to be carried out. KatChef does not assume liability for complaints which are attributable to inadequate washing tests.

# MEASUREMENT GUIDELINES

To get the best fit, stand straight and relax.

- CHEST:** Measure from the fullest part of the chest/bust with your arms down.
- WAIST:** Measure around your natural waistline above the hips.
- HIPS:** Measure around the fullest part of the hips.
- NECK:** Measure around the neck at the Adam's apple.
- INSEAM:** Measure from the base of the crotch to the bottom end of your pants. Or select a pair of pants that fits you well and measure along the inside leg seam from the crotch to the bottom of the hem.

The above measurement will help us find the perfect fit for you. The garment will be larger than the body measurements in order to provide for comfortable movement.

## HOW TO ORDER

We look forward to your getting in touch with us to place your orders at [order@katchef.com](mailto:order@katchef.com)

"In my mind KatChef is the only world class chef wear in India. It is also very hip and cool which suits the need of the gen-nex chefs of this diverse nation."

Sabyasachi Gorai,  
Director of Kitchens, Olive,  
New Delhi
